Slavka Tzanova informed the partners on the planned external evaluation and audit of the project which should be done before the end of August and the difficulties because of vacation period. So, all partners are required to submit their reports as soon as possible.

Slavka prepared a draft of the final technical report in which each partner has to provide information for her/his university/country/region.

The bilateral agreements for collaboration were discussed. Some agreements are already signed between TAU and Polito, BIU and a Chinese university. The feasibility of a multinational agreement was discussed. Jack said that it would be too difficult to have an opinion of the legal department and it will take a lot of time.

An exploitation agreement should be prepared and signed for the further use of the on-line courses. Slavka proposed to use as a basis the agreements signed in the Tempus project with 6 Israeli Nanocenters.

Jack Barokas proposed to create folders in OneDrive at the TAU servers for sharing all reporting documents.

The partners are expected to correct the previous reporting documents and to send all reporting documents as soon as possible.

The next Zoom meeting will be on 12 July 2021 from 08:00 CET:
